MINUTES OF THE PROCEEDINGS OF THE COMMITTEE OF THE HOUSE OF PEERS ON THE BUDGET AT THE 67TH SESSION OF THE IMPERIAL DIET, 25 FEBRUARY 1935.

> Answer of the Minister of State. Minister of State, Mr. Koki Hirota,

Now I shall explain about the foreign policy. The abrogation of the Washington Treaty has been the greatest problem for Japan, the end of last year being the deadline for the announcement of an abrogation. Fortunately, a preliminary naval conference was to be held in London, which afforded opportunity of making the Japanese intention clear, thus enabling to make announcement of abrogation in a most peaceful atmosphere imaginable. I endeavored with an idea to create as good an atmosphere as possible for the naval conference, after consulting with the powers as to the method of abrogation in the preliminary conference. Happily, I think the procedure of the abrogation of the Washington Treaty has passed without mishap.

Furthermore, to bring about naval disarmament, it is essential that the world should be in a peaceful atmosphere. It is impossible to accomplish disarmament when the powers feel internationally uneasy about each other because armament is the most important organ of security. In order to maintain world peace I should like to harmonize the interests of the powers by better understanding as there are many conflicts of sentiment and interests. For the realization of this aspiration, as the powers attending the naval conference are greatly interested and anxious about the maintenest of peace in the Far East, Japan as the power which has the responsibility the maintenance of peace in the Far East should work towards this end.

As for the foundation of peace in the Far East, relations with Russia, centering around Manchukuo, and relations between Japan and China are the most important problems. Therefore, striving to promote the friendly relations with these countries, I intend to make every effort to be in a position to show the world the substance of the peace of the Far East by the time Japan attends a preliminary conference or the naval conference.

I think it is unnecessary at this time to state the relations with these countries except to say that, in general, I think, they are gradually improving.
